

re:k-love radio.this station is important to me,it calms my 2 grandsons,both with ausberger's syndrome and adhd.They sing along with the music.My community would suffer without k-love, those who need comforting and someone to pray for them would lose out.It is in the public interest to have k-love available to every one who doesn't like the modern day music with the filthy lyrics. Children can listen to this music,parents do not have to worry about the kids hearing off color remarks,sexual remarks.
